

Symbolism: Lucky
Plant Type: Herb

It's one of my favorites because you can eat it.

Unique Fact:

It is used to treat skin diseases such as abscesses and eczema. Its leaves are decocted to treat swelling.

Mock strawberry, False strawberry
It has foliage and produces an aggregate accessory fruit similar to that of a true strawberry. It has yellow flowers unlike the white or slightly pink flowers of true strawberries. Hence, it is called mock strawberry or false strawberry.
